GTS Financial Accounting Solutions

GTS believes in focusing on its core competency, glass software. Instead of attempting to build a proprietary accounting package, GTS partnered with industry leading companies to provide customers with best-in-class financial applications tightly integrated with GlasPaCLX.

Microsoft Dynamics GP

GTS is one of only two companies in the U.S. with a co-development partnership with Microsoft to merge an industry-specific solution, GlasPaCLX, with Microsoft Dynamics GP Financial application. Over 38,000 companies, ranging from small businesses to large, multi-national corporations, trust their business to Microsoft Dynamics GP.

- GTS is a Certified Microsoft Dynamics GP provider and Gold Partner. That means GTS has achieved, through third party validation, the highest level of competence and expertise with Microsoft technologies. And we have customers utilizing the solution willing to recommend it
- Run Microsoft Dynamics on-premise or utilize GTS on-line, hosted services to access your business from anywhere, anytime
- Easily and fully leverage the Microsoft Office products you use everyday to further boost company productivity

QuickBooks

After more than 20 years, Intuit continues to transform financial management for small businesses. QuickBooks is the leading choice of small businesses for fast and easy financial management. As a Premier member of Intuit's developer network, GTS has integrated GlasPaCLX with QuickBooks to meet the high quality standard of operation and compatibility expected by our customers.

- GTS provides personalized support and training from professional QuickBooks experts whenever you need it so you can get back to business fast
- Run QuickBooks on-premise or utilize GTS on-line, hosted services to access your business from anywhere, anytime
- Over 57,000 growing companies have chosen QuickBooks Enterprise, helping make QuickBooks the #1 financial management software brand for mid-sized firms with 20-500 employees.

"GlasPaCLX with integrated accounting was the first thing we got when we opened this business. We can't live without it."

— Patrick Norton, Norton Glass Products, Inc.

Connect GlasPacLX to your existing financial application

GTS integration tools can connect you to the financial application of your choice. Today, GTS customers have successfully integrated GlasPacLX with a myriad of financial applications; including, but not limited to, JD Edwards, Solomon, SAP, Oracle, Simply Accounting, Adagio, ACCPAC, MAS, and Business Works.

- GTS DataMAX tool is an easy-to-use, non-technical export tool within GlasPacLX used for general accounting interfaces
- GTS DataBridge provides customers with developer level access to GlasPacLX to create a more integrated connection with their financial or other third party applications
- GTS can provide custom interface development with any third party application

Monitor and report business in real-time

Imagine how successful your company would be if everyone had the right information at the right time. GlasPacLX integrated with MS Dynamics, QuickBooks or the financial accounting package of your choice achieves this vision.

- Connected with GlasPacLX your financial accounting application now understands glass
- Data flows seamlessly from front to back-office - Data entered once eliminates downstream errors
- With the combined real-time reporting capabilities of GlasPacLX and your financial accounting package, you will have exactly what you need for strategic and operational decision making

Celebrating 26 years of partnership with our customers

GTS's defining mission is to help our customers achieve their goals for growth and profitability. We believe that the right technology helps companies enable, empower and inspire their employees to solve problems, collaborate with colleagues, serve customers, and seize new opportunities.

GTS is the leader in glass-specific business software with over 5,000 customers throughout North America. Working with leaders in the Glass Industry and developing software with companies such as Microsoft, GTS delivers everything you would expect from an enterprise resource planning (ERP) package – point-of-sale, purchasing, inventory management, call center, e-business, estimating, job management and costing, etc. – tailor made for the glass industry.

Our commitments include:

- Continuous investment in software enhancements to keep GTS customers ahead of the competition
- Over 90% of our 50 employees are dedicated to product innovation and customer service
- 24 x 7 Customer and technical support
- Professional, objective-based learning through GTS University classroom training or the flexibility of computer/web-based training programs
- Systems engineering and On-line hosting services
